

AWB-2500

Semi-automatic Wheel Balancer

DESCRIPTION

This balancer utilises industry leading Italian software, and has automatic measurement tyre diameter and distance.

The optimisation and weight split functions assist the user in creating a better balance.

Optional motor-cycle adaptors are available to compliment the motorcycle balancing programmes.

Led light for clear working operation, and a manual pedal brake for assistance.

TECHNICAL

Max Rim Diameter	1"-28"
Max Wheel Diameter	1118mm
Max Wheel Weight	70kg
Max Rim Width	1.5"-20"
Power Supply	240v
Balancing Time	7s
Dimensions	1550x1160x1240mm
